

Subject - Chemistry

Class – 12

Topic :- polymer

- A. See the video #1 to 6 and give the answers.
- B. Do notes in CW copy.

- 1 Define the term homopolymerisation.
- 2 In nylon 66 what does the designation 66 mean?
- 3 Write the structure of the monomeric unit of nylon 66.
- 4 What is meant by copolymerisation?
- 5 What is the repeating structural unit in polythene polymer?
- 6 Draw the structure of the monomer for each of the following polymers –
Nylon 6 polypropene
