Topic- WE ARE SPECIAL

Learn and write the following questions and answers

Q6. How did Louis Braille developed the Braille Script?

Ans6. Charles Barber, a captain in the army showed a script based on 12 raised dots that he had developed for French army to communicate in darkness without making any sound. Louis Braille was highly impressed by that script. He made efforts and modified the 12 dots writing method into the 6 dots method (3 dots each arranged in two columns). In this way, he developed the Braille script.

Homework

Q7.

Look at the picture of a handicapped child and write any three questions to know how you can help the child.
