**Learn and write the paragraph about My Garden.**

A garden is a place where different types of plants specially flowers and vegetables are cultivated. Generally, a garden is made for two purposes. One is for earning a livelihood and the other is for refreshing one's mind. I have a garden in front of my house. I cultivate various kinds of flowers and vegetables in my garden. I work in it in every afternoon for about an hour. I water my garden everyday. I have put a fence around it. It refreshes my body and mind which helps in my studies.
