Subject- EVS

Class- III

Topic- Water and Us

Learn and write the following hard words-

1. Taste
2. Typhoid
3. Tube wells
4. Treatment
5. Electrical
6. Filter
7. Drum
8. Bucket
9. Utensils
10. Activities
11. Survive
12. Machines
13. Purification
14. Reservoir

Learn and write the following book exercises-

Look at the pictures given below and write how we use water.

1. Washing.....

2. Gardening.....

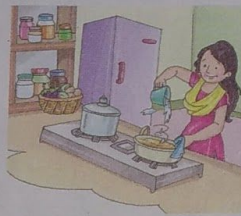

3. Drinking.....

4. Bathing.....

5. Cleaning Utensils.....

6. Cooking.....

7. Putting off fire.....

8. Cleaning.....

EXERCISES

(Use Cordova Smart Class Software on the smart board in class to do these exercises.)

A. Tick (✓) the correct answers.

- We use a hand-pump to draw water.

(a) surface	<input type="checkbox"/>	(b) underground	<input checked="" type="checkbox"/>	(c) river	<input type="checkbox"/>
-------------	--------------------------	-----------------	-------------------------------------	-----------	--------------------------
- We cannot live without

(a) insects.	<input type="checkbox"/>	(b) salts.	<input type="checkbox"/>	(c) water.	<input checked="" type="checkbox"/>
--------------	--------------------------	------------	--------------------------	------------	-------------------------------------
- Delhi developed on the bank of river

(a) Yamuna.	<input checked="" type="checkbox"/>	(b) Krishna.	<input type="checkbox"/>	(c) Sabarmati.	<input type="checkbox"/>
-------------	-------------------------------------	--------------	--------------------------	----------------	--------------------------
- If we do not drink water for a long time, we feel

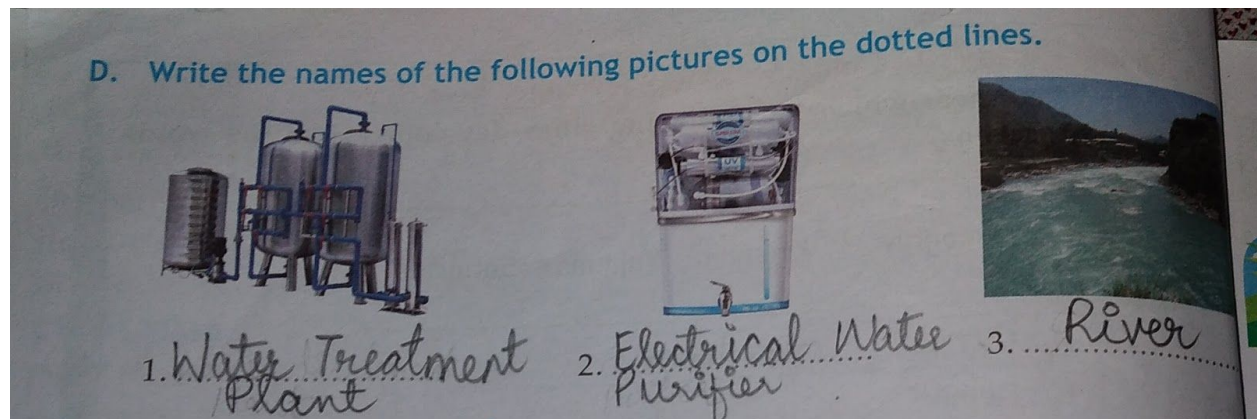

(a) hungry.	<input type="checkbox"/>	(b) thirsty.	<input checked="" type="checkbox"/>	(c) healthy.	<input type="checkbox"/>
-------------	--------------------------	--------------	-------------------------------------	--------------	--------------------------

B. Circle the odd ones. Give reasons for your answers.

- playing cooking bathing washing
- river sea reservoir lake
- pond stream river tank

C. Fill in the blanks.

- Water has no colour, smell or taste.....
- Dirty water can cause diseases like jaundice and typhoid.....
- In villages, people draw water from wells..... and tube wells, handpump.....
- Before water reaches our home, it is purified in Water treatment plant.....

Homework-

Draw a neat and clean diagram of "Various containers to store water" from page no. 34 and colour it.

Learn and write the following question answers-

Very short answer questions.

Q1. Name 2 ways of cleaning water at home.

- A1. 1. Boiling
2. By using a water filter.

Q2. Name 2 containers to store water.

- A2. 1. Drum
2. Bucket

Short answer questions.

Q1. Why do we need water?

- A1. We need water for drinking, cooking, washing clothes and utensils and bathing.

Q2. Why do we boil water?

- A2. We boil water to kill the germs present in it.

Q3. We should not waste water, instead, try to save every drop. Why do you think this is important?

- A3. We need water for most of our activities, such as cooking, washing, drinking, bathing, etc. We cannot survive without water for long. So, it is very important to save every drop of water.

Long answer questions.

Q1. How does water from rivers reach our homes?

- A1. Water from rivers is purified in big machines called water treatment plants. After

purification, water is collected in reservoirs. From the reservoir, it reaches our home through big pipes.

Q2. How do we get underground water?

A2. Wells and tube wells are dug to get underground water. Hand-pumps are also used to draw out this water.
