Subject- EVS

Class- III

Topic- We save water

Learn and write the following hard words-

1. Plenty
2. Collect
3. Container
4. Shortage
5. Buckets
6. Continuous
7. Movement
8. Atmosphere
9. Slices
10. Wastage
11. Prevented

Learn and write the following book exercises-

EXERCISES

(Use Cordova Smart Class Software on the smart board in class to do these exercises.)

A. Tick (✓) the correct answers.

- We must collect rainwater in a container.
(a) wide-mouth (b) small (c) narrow-mouth
- The main source of water on earth is
(a) river. (b) pond. (c) rain.
- We face a shortage of drinking water during the
(a) rainy season. (b) summer season. (c) winter season.
- Water goes up as water vapour and forms
(a) clouds. (b) rocks. (c) rains.

B. Circle the odd ones. Give reasons for your answers.

- pot bucket water jug
- washing drinking bathing sleeping

C. Fill in the blanks.

- We should drink plenty of water every day.
- Close the tap when the container is full.
- We must collect and store as much rainwater as possible.
- We should avoid cleaning utensils under a running tap.

Cordova Learning Series EVS-3

57

D. Tick (✓) the right pictures and cross (X) the wrong ones.

Learn and write the following question answers-

Very short answer questions.

Q1. Which type of container should you use to collect rainwater- wide mouth or narrow-mouth?

A1. Wide-mouth container.

Q2. Name two vessels for storing water.

A2. Buckets and drums.

Short answer questions.

Q1. Why do we have a shortage of water during summers?

A1. We have a shortage of water during summers because of less rains many ponds dry up. We cut down forests which causes the shortage of rainfall.

Q2. What is a water cycle?

A2. The process of continuous movement of water from the earth's surface to the atmosphere and from the atmosphere back to the earth's surface as rain is known as water cycle.

Q3. Rahul never throws away the leftover water from his water bottle, instead, water the plants with it. Is he doing the right thing? Why/why not?

A3. Rahul is doing the right thing because he is not wasting water but reusing it.

Long answer questions.

Q1. List three ways of saving water.

A1. We can avoid wastage of water in the following ways:

- (a) By watering plants using a bucket and mug instead of a pipe.
- (b) By mending leaking pipelines and taps immediately.
- (c) By keeping the tap closed while brushing.

Q2. List three ways of reusing the water.

A2. We can reuse water in the following ways:

- (a) Water used for washing fruits and vegetables can be collected and reused for watering the plants.
- (b) Water used for washing clothes can be reused for mopping the floor.
- (c) Water used for washing hands and face can be used in the toilets.
