

Subject - Maths

Class - IV

Topic - Subtraction

Note: Exercise questions and solution 1 is given in previous assignment.
Solution has been done for you complete the answers and write in the blanks.
Check the answer from the back of the book.

Q2. The population in the city.

Solution: Total population = 4,75,173
Number of males = 2,58,745
∴ Number of females =

$$\begin{array}{r} 475173 \\ - 258745 \\ \hline 216428 \end{array}$$

Ans:- Number of females in the city is 2,16,428.

Q3. What must be added to 43,172 to get 82,054?

Solu:-

$$\begin{array}{r} 82054 \\ - 43172 \\ \hline 38882 \end{array}$$

Ans: 38,882 must be added to 43,172 to get 82,054.

Q4. Mrs. Khanna bank account?

Solu. Money in the bank = ₹ 8,28,050

Money spent = ₹ 4,57,375
