Subject- EVS

Class- III

Topic- Natural Resources and Pollution

Learn and write the following hard words-

1. Quantities
2. Resources
3. Pollution
4. Noise
5. Reduce
6. Environment
7. Garbage
8. Prevented
9. Discharge
10. Sewage
11. Factories
12. Loudspeakers

Learn and write the following book exercises-

EXERCISES

(Use Cordova Smart Class Software on the smart board in class to do these exercises.)

A. Tick (✓) the correct answers.

- Most of the pollution is caused by
 (a) animals. (b) humans. (c) plants.
- Noise pollution affects our
 (a) ears. (b) nose. (c) eyes.

 (a) air (b) soil (c) water

B. Circle the odd ones. Give reasons for your answers.

- petroleum coal soil plastic
- car bus trucks plants
- aeroplanes loudspeaker smoke from cars music system

C. Fill in the blanks.

- Some natural resources are being used in large quantities.
- Natural things like soil, water and coal are called natural resources.

Learn and write the following question answers-

Very short answer questions.

Q1. Name any 5 natural resources.

A1. Soil, water, coal, wood, petroleum.

Q2. Name the different kinds of pollution.

A2. Air pollution, Water pollution, Noise pollution.

Short answer questions.

Q1. Why should we plant more trees?

A1. Trees clean the air. They also reduce noise pollution. So, we should plant more trees.

Q2. What is pollution?

A2. Making the environment dirty by adding harmful substances to it is called pollution.

Long answer questions.

Q1. How can we prevent water pollution?

A1. Water pollution can be prevented by doing the following activities.

(i) By stopping the discharge of sewage from homes which goes into rivers.

(ii) By not throwing harmful wastes from factories into rivers.

(iii) By not washing clothes on river banks.

(iv) By not bathing the animals in rivers and ponds.

Q2. How is noise pollution caused?

A2. (i) Noise pollution is caused by motor vehicles like cars, buses, trucks and powerful motorcycles.

(ii) The sound produced by loudspeakers also causes noise pollution.
